b. Refund of Taxes Paid on Retirement Deductions. Both local newspapers have recently reported the federal court action by two unions to exempt from current taxation the 7% deductions for retirement annuities. The unions contend that federal income tax should be paid only as the employee receives his retirement annuity. The unions are reported to be advising federal workers to make a refund claim for the 1969 tax year by 15 April 1973 to avoid the 3 year statute of limitations for that tax year. Claims for tax years 1970 and 1971 may be filed at the same time. Both the Director of Personnel and OGC take the position that the decision to file refund claims must be a personal one.

25X1

The filing of a refund claim is accomplished by the use of "Form 843" or "Form 1040x," either of which may be obtained from IRS.

that anyone wishing to make a claim on 1972 income should first file his regular return and follow it sometime later with a Form 843 or 1040x.

c. Credit Union. A notice [] was recently published to advise employees that certain elements of the Credit Union had moved to Ames Building, that information on accounts would hereafter be obtained from those units, and that classified information could be obtained over Green Line []. We have been asked to expand this by reminding you that the Gray and Green Lines interconnect, and either can be used to contact the Credit Union's Green terminal. If you do not now have a secure line, you may submit a requisition to Chief, [] for a Gray Line.

e. Dollar Devaluation. The 10% devaluation of the U.S. dollar, announced two days ago, will have some effect on the cost of living at some stations, but it is too early to know which stations will be affected and by how much. It is anticipated that the greatest impact will be in [] and some of the European 25X1A countries, and that changes elsewhere will be moderate to slight. The Department of State is reviewing the need for changes in per diem and allowance rates for official Americans overseas. The Administrative Allowance Committee will take whatever action is necessary to assure that NOC personnel are not hurt by drastic and sudden losses of purchasing power. However, we urge that proposals be carefully documented and well staffed, and that they not be submitted on a crash basis. We have discussed the situation with both OER and the Office of Finance. We should appreciate it if the Area Divisions and Staffs could keep this office advised as information is received, and we will forward to you anything which becomes available to us. It will be some time before the changes can be assessed with enough precision to authorize adjustments. There is also the obvious requirement that all components review their budgets for the remainder of FY 73 and for FY 74 to determine whether reprogramming is necessary to cover the immediate future. We understand that this study is already underway.

25X1 f. Security Violations. There were a total of 16 security violations charged to DDP components during the month of January. WH had 5; AF and FE each had 2; TSD, SB, NOCAD, EUR, [] CC, and CA each had one.

g. Deaths.

25X1A a. [] an SB Division officer, died of an apparent heart attack last night at his home. He was 54.

25X1A b. [] a Commo officer assigned to [] died on Monday 25X1A at [] of a coronary occlusion. He was 37.
